##### *Opt-out Preference Signals*

An opt-out preference signal is sent by a platform, technology, or mechanism on behalf of consumers and communicates a consumer’s choice to opt out of the sale and sharing of Personal Information for cross-context behavioral advertising with all businesses that recognize the signal, without having to make individualized requests. The signal can be set on certain browsers or through opt-out plug-in tools.

We recognize the Global Privacy Control signal and do so at the device and browser level. The opt out therefore does not apply to Personal Information we may collect offline or that we may associate only with your name or email address. This means that if the signal is sent through a specific browser on a specific device, we will recognize it for that browser as used on that device only, and only with respect to the identifiers for that browser. If you would like more information about opt-out preference signals, including how to use them, the Global Privacy Control website has additional information (<https://globalprivacycontrol.org/>).

#### **How will we respond to requests to exercise your rights to access, delete, correct, or opt out of the sale or sharing of Personal Information?**

For requests for access, deletion, or correction, we will first acknowledge receipt of your request within 10 business days of receipt of your request. We will then provide a substantive response to your request as soon as we can, generally within 45 days from when we receive your request, although we may be allowed to take longer to process your request in certain jurisdictions or under certain circumstances. If we expect your request is going to take us longer than normal to fulfill, we will let you know.

For requests to opt out of the sale or sharing of Personal Information, we will comply no later than 15 business days after receipt of your request.

We usually act on requests and provide information free of charge, but we may charge a reasonable fee to cover our administrative costs of providing the information in certain situations.

In some cases, the law may allow us to refuse to act on certain requests. When this is the case, we will endeavour to provide you with an explanation as to why.

### **How will we verify your identity when you submit a request to access, delete or correct Personal Information?**

We will ask you to provide identifying information to verify your identity.

If we are unable to verify your identity with the degree of certainty required, we will not be able to respond to the request. We will notify you to explain the basis of the denial.

### **How do we process requests made on your behalf by an agent?**

You may designate an agent to submit requests on your behalf.

Additionally, the agent will be required to provide us with written proof that you gave the agent signed permission to submit a request on your behalf.

Information to identify and verify your agent can be submitted through the same mechanism and at the same time that you submit information to verify your identity.

If you would like to designate an agent to act on your behalf with respect to requests to opt out of the sale or sharing (for cross context behavioral advertising) of Personal Information, the agent will need to provide us with your signed permission indicating the agent has been authorized to submit the opt-out request on your behalf.
